## MATERIAL AT THE LBJ LIBRARY PERTAINING TO **ANTITRUST MATTERS**

### INTRODUCTION

This list includes the principal files in the Johnson Library that contain material relating to Antitrust Matters. It is not definitive, however, and researchers should consult with the Library's archivists about other potentially useful files. The guide includes those collections that have been opened for research in part or in whole, and those collections that are currently unprocessed or unavailable.

### WHITE HOUSE CENTRAL FILES (WHCF)

This permanent White House office was the main filing unit during the Johnson presidency, though not the primary file for foreign policy documents. Material was filed under 60 major subject headings, several of which are pertinent to Antitrust Matters.

### WHCF NAME FILE

This file serves as a name index to the Subject File. Name Files, in general, contain copies of the first page of documents (used as cross references) filed in the Subject Files. Request files by name of individual or organization. There is a card file in the Reading Room card catalogue indicating those Name Files that are already available for research.

(Chiefly a cross reference by name into appropriate White House Central Files, Subject Files.) Request individual names.

### WHCF, CONFIDENTIAL FILE

Arranged in the same subject categories as the WHCF Subject File (consult the categories above), this file contains security classified or otherwise sensitive material. The CF Name File serves as a name index to

the CF Subject File. This collection also includes agency reports and oversize attachments. The CF is entirely processed, but portions are still classified.

### OFFICE FILES OF THE WHITE HOUSE AIDES

Many White House aides maintained office files of their own, separate physically from the rest of the White House Central Files. The files of each aide reflect his or her responsibilities. This list is not definitive, but it does include most pertinent folders in the aides' files. If a folder is not open for research, it will be processed upon request. Researchers should anticipate a delay in receiving this material.
