Request files by name of individual or organization. Examples of pertinent names files are "Martin Luther King, Ralph Abernathy, SCLC, Poor People's Campaign, Resurrection City, and Mississippi Freedom Democratic Party. There is a card file in the Reading Room card catalogue indicating those Name Files which are already available for research. Any files that are currently unavailable will be processed upon request.

The CF Name File serves as a name index to the CF Subject File. This collection also includes agency reports and oversize attachments. The CF is entirely processed, but portions are still classified. The researcher should see the WHCF Subject File categories listed above.

### APPOINTMENT FILES

The Diary Cards in the Reading Room provide an alphabetically arranged name index to the President's appointments. The Daily Diary is a log sheet of appointments and phone calls maintained by the White House secretaries.

The Diary Backup contains preparation material, press releases, and schedules for meetings and appointments, as well as some reports and notes from the meetings.

Many White House aides maintained office files of their own, separate physically from the rest of the White House Central Files. The files of each aide reflect his or her responsibilities. This list is not

definitive, but it does include most pertinent folders in the aides files.

## RECORDINGS AND TRANSCRIPTS OF TELEPHONE CONVERSATIONS

The Johnson Library staff has processed the recordings and transcripts of President Johnson's telephone conversations. The collection includes over 6,000 recordings of conversations with members of Congress, other public officials, civil rights leaders, members of the press, friends and family. LBJ Library staff have noticed significant errors and omissions in the transcripts and suggest that transcripts and recordings be used together. See the Library's web site for descriptions of the conversations (<http://www.lbjlib.utexas.edu/johnson/archives.hom/Dictabelt.hom/content.asp>).
