This list includes the principal files in the Johnson Library that contain material relating to the Higher Education Act of 1965. It is not definitive, however, and researchers should consult with the Library's archivists about other potentially useful files. The guide includes those collections that have been opened for research in part or in whole, and those collections that are currently unprocessed or unavailable.

WHITE HOUSE CENTRAL FILES (WHCF)

This permanent White House office was the main filing unit during the Johnson presidency, though not the primary file for foreign policy documents. Material was filed under 60 major subject headings. For descriptions of the various subject headings, see the finding aid for WHCF.

OFFICE FILES OF THE WHITE HOUSE AIDES

Many White House aides maintained office files of their own, physically separate from the rest of the White House Central Files. The files of each aide reflect his or her responsibilities. This list is not definitive, but it does include most pertinent folder titles. Folders not currently available for research will be processed upon request, but researchers should expect a delay. Please consult the finding aids for more detailed information on White House aides and their files.
