MATERIALS IN THE LYNDON B. JOHNSON LIBRARY PERTAINING TO **SPACE** (including NASA, OUTER SPACE, AEROSPACE, & AERONAUTICS)

This list includes the principal files in the Johnson Library that contain material relating to NASA, Science and Technology, Outer Space, Aerospace and Aeronautics. It is not definitive, however, and researchers should consult with the Library's archivists about other potentially useful files. The guide includes those collections that have been opened for research in part or in whole, and those collections that are currently unprocessed or unavailable.

SENATE PAPERS 1949—1961

Researchers may request review of individual folders. Advance notice is preferred. The papers reflect Johnson's role as Senator from Texas and as Democratic Party leader.

LYNDON BAINES JOHNSON ARCHIVES 1931—1968

In 1958, the Johnson staff instituted a records management program in the office which included a plan to dispose of noncurrent files. They set up the Lyndon Baines Johnson Archives (LBJA) to house items to be permanently retained rather than scheduled for disposal. Johnson files from the House and Senate period were screened, and selected items and files were moved to the LBJA file. Between 1958 and 1963, the staff continued to add to the file. Occasionally items were added during the White House period. The LBJA consists of four parts: a Congressional File, a Famous Names File, a Selected Names File, and a Subject File.

WHITE HOUSE CENTRAL FILES, SUBJECT FILE

This permanent White House office was the main filing unit during the Johnson presidency, though not the primary file for foreign policy documents. Material was filed under 60 major subject headings, several of which are pertinent to NASA, Science and Technology, Outer Space, Aerospace and Aeronautics. For descriptions of the various subject headings, see the finding aid for WHCF.

WHITE HOUSE CENTRAL FILES, NAME FILE

This file serves as a name index to the Subject File. Name Files, in general, contain copies of the first page of documents (used as cross references) filed in the Subject Files. Request files by name of individual or organization. There is a card file in the Reading Room card catalogue indicating those Name Files which are already available for research.

[Request appropriate names]

CONFIDENTIAL FILE

Arranged in the same subject categories as the WHCF Subject File, this file contains security classified or otherwise sensitive material. The CF Name File serves as a name index to the CF Subject File. This collection also includes agency reports and oversized attachments. The CF is entirely processed, but portions are still classified.

OFFICE FILES OF THE WHITE HOUSE AIDES

Many White House aides maintained office files of their own, separate physically from the rest of the White House Central Files. The files of each aide reflect his or her responsibilities. This list is not definitive, but it does include most pertinent folders in the aides files. If a folder is not open for research, it will be processed upon request. Researchers should anticipate a delay in receiving this material.

NATIONAL SECURITY FILE

This file was the working file of President Johnson’s special assistants for national security affairs,

McGeorge Bundy and Walt W. Rostow. Documents in the file originated in the offices of Bundy and Rostow and their staffs, in the various executive departments and agencies, especially those having to do with foreign affairs and national defense, and in diplomatic and military posts around the world. Much of the National Security File has been processed. Consult the finding aid in the Reading Room or borrow a lending copy by writing to the Supervisory Archivist, LBJ Library, 2313 Red River Street, Austin, Texas 78705. Those folders whose titles are preceded by an "X" or a date have been processed and their contents declassified in whole or in part. Lists of classified documents have been placed in those folders, and you may request mandatory review of individual documents which have not yet been declassified in full. Those folders not preceded by an "X" or a date are unprocessed and are not subject to mandatory declassification review. Consult with a member of the staff on the processing schedule.

APPOINTMENT FILES

The Diary Cards in the Reading Room provide an alphabetically arranged name index to the President's appointments. Once the date of an appointment has been determined, check the "Diaries and Logs" finding aid for the number of the appropriate boxes in both the Daily Diary and the President's Appointment File [Diary Backup].

The Daily Diary is a log sheet of appointments and phone calls maintained by the White House secretaries.

The Diary Backup contains preparation material, press releases, and schedules for meetings and appointments, as well as some reports and notes from the meetings.

RECORDINGS AND TRANSCRIPTS OF TELEPHONE CONVERSATIONS

The Johnson Library staff has processed the recordings and transcripts of President Johnson's telephone conversations. The collection includes over 6,000 recordings of conversations with members of Congress, other public officials, members of the press, friends and family. LBJ Library archivists have noticed significant errors and omissions in the transcripts and suggest that transcripts and recordings be used together. See the Library's web site for descriptions of the conversations: <http://www.lbjlib.utexas.edu/johnson/archives.hom/Dictabelt.hom/content.asp>. Many of the conversations are available on-line at the Miller Center at the University of Virginia at: www.whitehousetapes.org.
