## MATERIAL AT THE LBJ LIBRARY PERTAINING TO JAPAN

### INTRODUCTION

This list includes the principal files in the LBJ Library that contain material on Japan. It is not definitive, however, and researchers should consult with an archivist about other potentially useful files. For additional material on Japan, see also the Library's list entitled, "Foreign Economic Policy During the Johnson Presidency: Trade, Balance of Payments, and International Monetary Issues"(FI 9, FO 4, TA). Those files listed below that are marked with two asterisks are unprocessed and are not currently available for research.

### NATIONAL SECURITY FILE (NSF)

This file was the working file of President Johnson's special assistants for national security affairs, McGeorge Bundy and Walt W. Rostow. Documents in the file originated in the offices of Bundy and Rostow and their staffs, in the various executive departments and agencies, especially those having to do with foreign affairs and national defense, and in diplomatic and military posts around the world.

About half of the National Security File has been processed and opened for research. Consult the finding aid in the Reading Room or borrow a copy by mail by writing to the Supervisory Archivist, LBJ Library, 2313 Red River Street, Austin, Texas 78705. Those folders whose titles are preceded by an "X," an asterisk, or a date have been processed and their contents declassified in whole or in part. Lists of classified documents have been placed in those folders, and you may request mandatory review of individual documents which have not yet been declassified in full. Those folders not preceded by an "X," an asterisk, or a date are unprocessed and are not subject to mandatory declassification review. Consult with a member of the staff on the processing schedule.

**NSF, National Security Council Histories.** In 1968, the NSC staff prepared documentary histories of 21 international crises and events from the Johnson Presidency. Compiled by xeroxing key documents in the National Security File and in other files, these collections are extremely useful. Moreover, they provide access to documents the originals of which, in some cases, are in unprocessed files. Two NSC histories deal with Japan:

"Pueblo Crisis 1968"	27-37
"Nuclear Non-Proliferation Treaty"	55-56

**NSF, National Security Council Meetings**

Volume 3, Tab 37: "Peace Offensive re: Vietnam (1/5/66)"	2
Volume 4, Tab 56: "U.S. Relations with Japan (8/30/67) [Reversion to Japan of Ryukyus, Bonins and Other Western Pacific Islands]"	2

**NSF, Memos to the President.** This chronologically arranged series consists of memoranda (with attachments) to the President from his national security advisers, McGeorge Bundy (11/63-2/66) and Walt W. Rostow (4/66-1/69). The first twenty-eight boxes (through February 1968) have been opened for research, and significant portions have been declassified. Additional boxes are currently being processed. Material on Japan is scattered throughout this file.

This file serves as a name index to the Subject File. Name Files typically contain copies of the first page (cross references) of documents that were filed in the Subject File. Files should be requested by names of individuals or organizations. A card file in the Reading Room indicates which Name Files have been opened. Name Files will be processed upon request.

Researchers should anticipate a delay in receiving this material. (\*\* = unprocessed)

## LYNDON BAINES JOHNSON ARCHIVES 1931-1968

In 1958, the Johnson staff instituted a records management program in the office which included a plan to dispose of noncurrent files. They set up the Lyndon Baines Johnson Archives (LBJA) to house items to be permanently retained rather than scheduled for disposal. Johnson files from the House and Senate period were screened, and selected items and files were moved to the LBJA file. Between 1958 and 1963, the staff continued to add to the file. Occasionally, items were added during the White House period. The LBJA consists of four parts: a Congressional File, a Famous Names File, a Selected Names File, and a Subject File.

### MEETING NOTES

This collection includes notes for 100 of President Johnson's foreign policy meetings from 1963 through 1968, mostly with senior foreign policy advisers and Congressional leaders. Three-quarters of the meetings deal mainly with the Vietnam War. In addition, there are notes for 37 meetings at which Johnson discussed foreign affairs with correspondents.

### REPORTS ON ENROLLED LEGISLATION

Prepared by the Director of the Legislative Reference Office of the Bureau of the Budget, these reports cover all public bills submitted to the President for his approval. The reports include discussions of the purpose and ramifications of each bill as well as agency recommendations. The reports are arranged chronologically and identified by Public Law number and title. Consult the Special Files finding aid for additional information.

### HANDWRITING FILE

This file is a unique collection in that some of the documents located here do not appear in any other location in LBJ's papers. During the White House period, Dorothy Territo's office maintained this collection. If documents contained LBJ's handwriting or doodling, they were sent to this office, sometimes bypassing the White House Central File. Consequently, some material in the Handwriting File is not in WHCF or any other file.

### THE PRESIDENT'S APPOINTMENT FILE [DIARY BACKUP]

This file of backup material for the President's appointments includes schedules, briefing papers, press releases, some memoranda of conversations, and other material. Organized by date, there is a folder for most every day of the administration, with special folders for many head-of-state visits. While little foreign policy material was filed here during 1964 and 1965, Diary Backup includes a significant amount of foreign policy material for 1966-68.

The Diary Cards in the Reading Room provide an alphabetically arranged name index to the President's appointments. Once the date of an appointment has been determined, check the "Diaries and Logs" finding aid for the number of the appropriate box in Diary Backup. On Japan, see the following folders:

	<u>Box #</u>
