MATERIALS AT THE LBJ LIBRARY PERTAINING TO LATIN AMERICA AND THE WEST INDIES

INTRODUCTION

This list includes the principal files in the Johnson Library that contain material on the countries of South and Central America and the islands of the West Indies. The list is not definitive, however, and researchers should consult with the Library's archivists about other potentially useful files. See also the guide entitled "Foreign Aid, Food for Peace and Third World Economic Development (Asia, Africa, and Latin America)" (CO 1-8, CO 121, FG 105-4, FO 3, FO 3-2, IT 80, PC 2).

Researchers may also want to consult the *Foreign Relations of the United States* series before conducting research at the Johnson Library. This multi-volume documentary history is the official record of U.S. diplomatic activity. The volumes contain many documents from the holdings of the Johnson Library. The published volumes are available on-line at the State Department's web site at <http://www.state.gov/r/pa/ho/frus/johnsonlb/>, and you can also reach that site through the "Related Links" section of the Johnson Library web site (<http://www.lbjlib.utexas.edu>) under the "Research" button. Bound volumes may be available at any major university or public library.

Unless otherwise noted, the files listed below have been processed, and the unclassified and declassified material has been opened for research. Consult the finding aids for each collection for more information.

NATIONAL SECURITY FILE (NSF)

This file was the working file of President Johnson's special assistants for national security affairs, McGeorge Bundy and Walt W. Rostow. Documents in the file originated in the offices of Bundy and Rostow and their staffs, in the various executive departments and agencies, especially those having to do with foreign affairs and national defense, and in diplomatic and military posts around the world.

Approximately 90% of the National Security File has been processed and is available for research. Consult the finding aid in the reading room or borrow a copy through interlibrary loan by writing to the Supervisory Archivist, LBJ Library, 2313 Red River Street, Austin, Texas 78705. Some parts of the finding aid, including the finding aid for the Country File, are available on the Johnson Library's web site. Those folders whose titles are preceded by an "X" or a date have been processed and their contents declassified in whole or in part. Lists of classified documents have been placed in those folders, and you may request mandatory declassification review of individual documents which have not yet been declassified in full. Those folders not preceded by an "X" or a date are unprocessed and are not subject to mandatory declassification review. Consult with a member of the staff on the processing schedule.

[NSF, Country File, Latin America](#)

All of the Country Files for Latin American have been processed, and the unclassified and declassified material opened for research. However, for several countries a substantial amount of material is still classified.

WHITE HOUSE CENTRAL FILES (WHCF)-SUBJECT FILE

This permanent White House office was the main filing unit during the Johnson presidency, though not the primary file for foreign policy documents. Material was filed under 60 major subject headings, several of which are pertinent to Latin America. For descriptions of the various subject headings, see the two-volume finding aid for WHCF. All the material listed below has been processed and virtually all of it opened for research.

WHCF, NAME FILE

This file serves as a name index to the Subject File. Name Files typically contain copies of the first page (cross references) of documents that were filed in the Subject file. Request files by names of individuals or organizations. For example, see "Business Group for Latin America"; or, for Puerto Rico, see "Puerto Rico," "Governor Roberto Sanchez Vilella," and "Governor Luis Munoz Marin." A card file in the Reading Room indicates which Name Files have been opened. Name Files will be processed upon request.

WHITE HOUSE CENTRAL FILES, CONFIDENTIAL FILE (C.F.)

Security classified and other sensitive material sent to the White House Central Files was usually placed in the Confidential File. C.F. Subject File uses the same subject categories as WHCF. The Confidential File also includes a Name File (which serves as a name index to the C.F. Subject File), an agency reports file, and an oversize attachments file. The Confidential file is entirely processed, but portions are still classified.

PRESIDENT'S APPOINTMENT FILE (DIARY BACKUP)

This file of backup material for the President's appointments includes schedules, briefing materials, memoranda of conversations, and other sources. Organized by date, there is a folder for almost every day of the administration. As a rule, the amount of foreign policy material is far greater for 1966-68 than for 1963-65. Diary Backup should be consulted for events such as the Punta del Este Conference (April 12-14, 1967), Johnson's meetings with Latin American heads of state, and crises such as the Dominican Republic intervention of 1965. The Diary Cards in the Reading Room provide an alphabetically arranged name index to the President's appointments. Once the date of an appointment has been determined, check the "Diaries and Logs" finding aid for the number of the appropriate box in Diary Backup. For more detailed information on the President's daily activities, consult the President's Daily Diary, a log of his appointments, phone calls, and other activities, arranged chronologically it is has been digitized and is available on the LBJ Library web site. Special files devoted to Latin America and the West Indies topics are noted below.

The recordings are available at the University of Virginia's Miller Center web site (<http://millercenter.org/scripps/archive/>).

REMOTE ARCHIVES CAPTURE PROJECT FILE

The RAC Project File contains photocopies of documents opened in whole or in part by the Remote Archives Capture declassification program from those collections that are not yet open for research. Under the RAC Project, over 650,000 pages of documents at the LBJ Library were scanned and transmitted to Washington for declassification review. Periodically, the reviewed material is returned to the Library and processed by our staff as part of our on-going declassification efforts. Material on [topic] may be found in the RAC Project File. Consult the finding aid for the RAC Project File or an archivist for more information.

ADMINISTRATIVE HISTORIES

At the close of the Johnson administration, each department and agency was asked to prepare a history of its activities and accomplishments during the Johnson years. The histories consist of narratives with documentary supplements. See the finding aid for a table of contents of the various administrative histories.

HANDWRITING FILE

More than 15,000 pages of memos, notes, doodles, and other documents with Lyndon Johnson's handwriting (excluding material normally filed in the National Security File) were placed in a special Handwriting File during the Johnson presidency. Copies were frequently placed in the regular files, but some documents in this file cannot be found elsewhere (for example, the scratch pad notes collected by secretaries from the Oval Office and the Cabinet Room). The file is arranged chronologically, making it possible to check for material on Latin America for certain days or during limited periods. See this file, in particular, for material on the Dominican intervention.

OFFICE FILES OF THE WHITE HOUSE AIDES

Many White House aides maintained office files of their own, separate from the White House Central Files. The files of each aide reflect his or her responsibilities. This list is not definitive (some folders on foreign aid or foreign affairs in general, for example, may have material relating to Latin America--consult the Aides Files finding aid), but it does include most pertinent folders in the Aides Files. If a folder is not open for research, it will be processed upon request. **Researchers should anticipate a delay in receiving this material.**

LYNDON BAINES JOHNSON ARCHIVES 1931-1968 (LBJA)

In 1958, the Johnson staff instituted a records management program in the office which included a plan to dispose of noncurrent files. They set up the Lyndon Baines Johnson Archives to house items to be permanently retained rather than scheduled for disposal. Johnson files from the House and Senate period were screened, and selected items and files were moved to the LBJA file. Between 1958 and 1963, the staff continued to add to the file. Occasionally items were added during the White House period. The LBJA consists of four parts: a Congressional File, a Famous Names File, a Selected Names File, and a Subject File.
