MATERIAL AT THE LBJ LIBRARY PERTAINING TO **NORTHERN EUROPE** (including Denmark, Finland, Greenland, Iceland, Norway, and Sweden)

INTRODUCTION

This list includes the principal files in the LBJ Library that contain material on Northern Europe. The following countries have been included in this list: Denmark, Finland, Greenland, Iceland, Norway, and Sweden. The list is not definitive, however, and researchers should consult with an archivist about other potentially useful files. Those files listed below that are marked with two asterisks are unprocessed and are not currently available for research. For additional material on foreign economic policy involving Northern Europe, see the Library's list entitled, "*Trade, Balance of Payments, and International Monetary Issues*." (FI 9, FO 4, TA). For material on NATO see the list entitled, "*Western Europe and NATO*" (CO 1-9).

NATIONAL SECURITY FILE (NSF)

This file was the working file of President Johnson's special assistants for national security affairs, McGeorge Bundy and Walt W. Rostow. Documents in the file originated in the offices of Bundy and Rostow and their staffs, in the various executive departments and agencies, especially those having to do with foreign affairs and national defense, and in diplomatic and military posts around the world.

More than half of the National Security File has been processed and opened for research. Consult the finding aid in the Reading Room or borrow a copy by mail by writing to the Supervisory Archivist, LBJ Library, 2313 Red River Street, Austin, Texas 78705. Those folders, listed in the finding aid, whose titles are preceded by an "X," an asterisk, or a date have been processed and their contents declassified in whole or in part. Lists of classified documents have been placed in those folders, and you may request mandatory review of individual documents which have not yet been declassified in full. Those folders not preceded by an "X," an asterisk, or a date are unprocessed and are not subject to mandatory declassification review. Consult with a member of the staff on the processing schedule.

NSF, National Security Council Histories. In 1968, the NSC staff prepared documentary histories of 21 international crises and events from the Johnson Presidency. Compiled by photocopying key documents in the National Security File and in other files, these collections are extremely useful. In the "Kennedy Round Crisis, April-June 1967" History, references to Northern Europe are scattered throughout. For additional material on U.S. foreign economic policy and Europe, see the Library's list entitled "*Trade, Balance of Payments, and International Monetary Issues*" (FI 9, FO 4, TA).

NSF, Memos to the President. This chronologically arranged series consists of memoranda (with attachments) to the President from his national security advisers, McGeorge Bundy (11/63-2/66) and Walt W. Rostow (4/66-1/69). Material on Northern Europe is scattered throughout.

LYNDON BAINES JOHNSON ARCHIVES 1931-1968

In 1958, the Johnson staff instituted a records management program in the office which included a plan to dispose of noncurrent files. They set up the Lyndon Baines Johnson Archives (LBJA) to house items to be permanently retained rather than scheduled for disposal. Johnson files from the House and Senate period were screened, and selected items and files were moved to the LBJA file. Between 1958 and 1963, the staff continued to add to the file. Occasionally items were added during the White House period. The LBJA consists of four parts: a Congressional File, a Famous Names File (one folder--"Hammar skjold, Dag, 1958-65" in box 5--may contain material on Sweden), a Selected Names File, and a Subject File.

THE PRESIDENT'S APPOINTMENT FILE [DIARY BACKUP]

This file of backup material for the President's appointments includes schedules, briefing papers, press releases, some memoranda of conversations, and other material. Organized by date, there is a folder for most every day of the administration, with special folders for many head-of-state visits. While little foreign policy material was filed here during 1964 and 1965, Diary Backup includes a significant amount of foreign policy material for 1966-68.

The Diary Cards in the Reading Room provide an alphabetically arranged name index to the President's appointments. Once the date of an appointment has been determined, check the "Diaries and Logs" finding aid for the number of the appropriate box in Diary Backup. The following folders contain significant information on Northern Europe:
