**(including Cambodia, Indonesia, Laos, Malaya, North Borneo, Philippines,
Sarawak, Singapore, Thailand, Burma, Malaysia)**

INTRODUCTION

While this list includes the principal files available for research on Southeast Asia, it is by no means exhaustive. Researchers may wish to consult the Johnson Library's finding aids to locate additional material.

This list does not include the library's holdings dealing with Vietnam. For information on Southeast Asian involvement in the Vietnam War, see the Vietnam list (CO 312, ND 19/CO 312). For information on Southeast Asian economic development and the Asian Development Bank, see the guide entitled "Foreign Aid, Food for Peace and Third World Economic Development (Asia, Africa, and Latin America)" (CO 1-8, CO 121, FG 105-4, FO 3, FO 3-2, IT 80, PC 2)

Please note: files on this list which have not been fully processed are followed by a double asterisk (**).

NATIONAL SECURITY FILE (NSF)

The National Security File was the working file of President Johnson's special assistants for national security affairs, McGeorge Bundy and Walt W. Rostow. Documents in this file originated in the offices of Bundy and Rostow and their staffs, in various executive departments and agencies, especially those having to do with foreign affairs and national defense, and in diplomatic and military posts around the world.

More than half of the National Security File has been processed. Consult the finding aid in the Reading Room or borrow a copy by mail by writing to the Supervisory Archivist, LBJ Library, 2313 Red River St., Austin, Texas 78705. Those folders in the finding aid whose titles are preceded by an "X", an asterisk, or a date have been processed and their contents declassified in whole or in part. Lists of classified documents have been placed in those folders, and you may request mandatory declassification review of individual documents which have not yet been declassified in full. The appropriate forms may be requested in the Reading Room or by mail. Those folders not preceded by an "X", an asterisk, or a date are unprocessed and are not subject to mandatory declassification review. Consult with a member of the staff on the processing schedule.

WHCF, NAME FILE

This file serves as a name index to the Subject File. Name Files typically contain copies of the first page (cross references) of documents that were filed in the Subject File. Files should be requested by names of individuals or organizations. A card file in the Reading Room indicates which Name Files have been opened. Name Files will be processed upon request.

WHITE HOUSE CENTRAL FILES - CONFIDENTIAL FILE (C.F.)

Security classified and other sensitive material sent to the White House Central Files was usually placed in the Confidential File, a separate file from WHCF but one which uses the same subject headings. This file is entirely processed, but portions are still classified. See the description above of WHCF for a list of pertinent subjects. The Confidential File also includes a Name File.

HANDWRITING FILE

More than 15,000 pages of memos, notes, doodles, and other documents with Lyndon Johnson's handwriting (excluding material normally filed in the National Security File) were placed in a special

Handwriting File during the Johnson presidency. Copies were frequently placed in the regular files, but some documents in this file cannot be found elsewhere (for example, the scratch pad notes collected by secretaries from the Oval Office and the Cabinet Room). The file is arranged chronologically, making it possible to check for material on Southeast Asia for certain times.

ADMINISTRATIVE HISTORIES

At the close of the Johnson administration, each department and agency was asked to prepare a history of its activities and accomplishments during the Johnson years. The histories consist of narratives with documentary supplements.

LYNDON BAINES JOHNSON ARCHIVES 1931-1968 (LBJA)

In 1958, the Johnson staff instituted a records management program in the office which included a plan to dispose of noncurrent files. They set up the Lyndon Baines Johnson Archives to house items to be permanently retained rather than scheduled for disposal. Johnson files from the House and Senate period were screened, and selected items and files were moved to the LBJA file. Between 1958 and 1963, the staff continued to add to the file. Occasionally items were added during the White House period.
